

U18G: 2000/01 Girls Competitive Player Opportunities

THPFC U18G (2000 and 2001) are looking for passionate and skilled players. We have open spots for players (including keeper) who are interested in playing at the CSL level this summer, and joining our robust team and club training program.

Our head coach Dexter Gillmore has USSF National “C” level coaching certification, and our assistant coach Rose Sangster was a member of the Canadian Women’s National team and currently holds a Provincial C License.

THPFC’s Competitive Winter Training combines station-based training with team-based practices to develop individual skills, team tactics and winning strategies. Competitive Winter Training fosters a challenging, fun learning environment and aligns with Ontario Soccer's Long Term Player Development model and promotes a four-corner approach to player development. Players are schooled in the technical, tactical, physical and psychological aspects of the game with an increased emphasis on team tactics and strategies
