COACHES FOCUS - SUBSTITUTING PLAYERS IN GAME

The art of substituting players can tend to be a tricky one at times, and is this month's Coaches Focus. Here are some helpful tips for substituting:

- Come with a game plan: Plan out the lines of players and positions.
- Use the clock: Watch the clock and substitute players at equal time intervals.
- Use assistant coaches: Delegate subbing players to an assistant. This can help you focus on the game, and give roles to your assitants.

The internet also has many resourceful tips. Some can be found here:
