# Creating A Birth Certificate Document Repository

A document repository acts as a folder, which stores all of the signed forms for this type of document. You are able to include this into your registration process which will be a one-time upload for all players. Once a player has submitted their birth certificate, they will not be asked again.

## STEP 1

In the Dashboard menu, click the **"Forms"** dropdown and select **"Forms"**.

## STEP 2

Click **"New"** to create a form.  
(continued on next page)

**NOTE:** If you are using GotSport for registering players, you can make this form "required" and it will automatically be included within all of your programs. Once a player completes the form once, they will not be asked to complete the form again during future program registrations with your club.

## STEP 4

Click **"Registration Form"** at the top of your screen  
(continued on next page)

# Player Upload

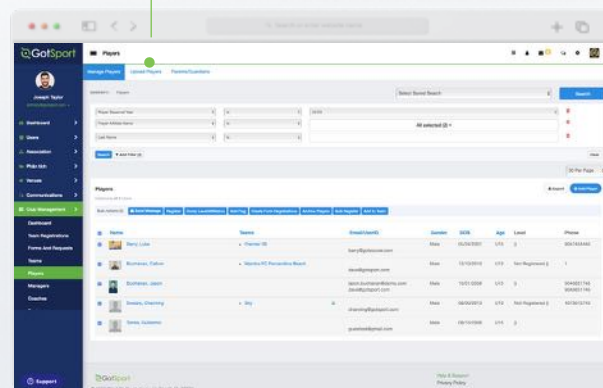

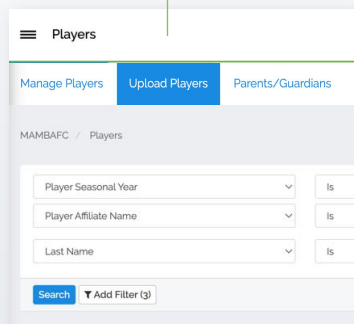

## STEP 1

From your Dashboard, click 'Club Management', then 'Players'.

## STEP 2

Click 'Upload Players'.

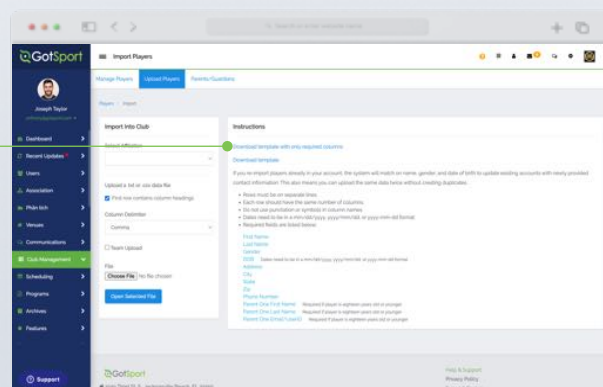

## STEP 3

Click on "Download template with only required columns".

A blank template .csv file will download, and you can utilize it to match up to your players' information to prepare for the upload. The instructions table will guide you through the correct format and required data fields needed for the upload.

**Note:** When the information is complete in your template, be sure to save the file as either a .csv or .txt file so it is compatible to upload. An Excel (.xls), Numbers, or Google Sheet file will not be compatible. (continued on next page)

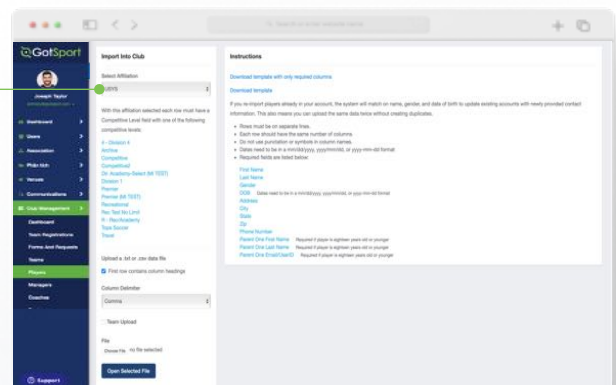

# Player Upload

## STEP 4

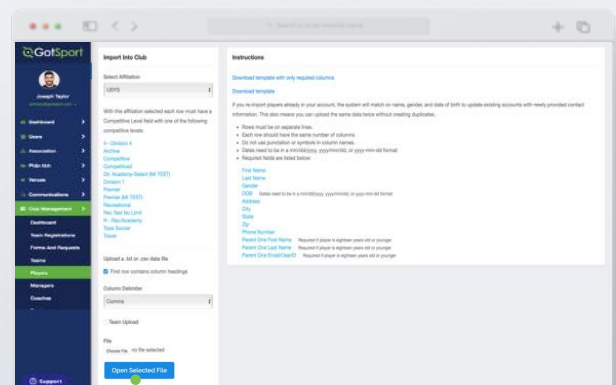

Go to the Import into Club section and fill in the information needed for the upload. You can upload all Players with an Affiliation added to their account by opening the **“Select Affiliation”** dropdown menu and selecting the desired Affiliation. You will be required to include the Competitive Level for each of the Players (the list of available Competitive Levels will populate once the Affiliation is selected for you to include in your player upload file).

**Note:** You can also assign the players to their teams through the upload as well by checking off the Team Upload checkbox. This step is *not* required to upload your Players. If selected, you would be required to include three additional columns in the upload file. 1) Team Name, 2) Team Age, and 3) Team Gender.

## STEP 5

Click **‘Choose File’** to select your file and click the Open Selected File button.

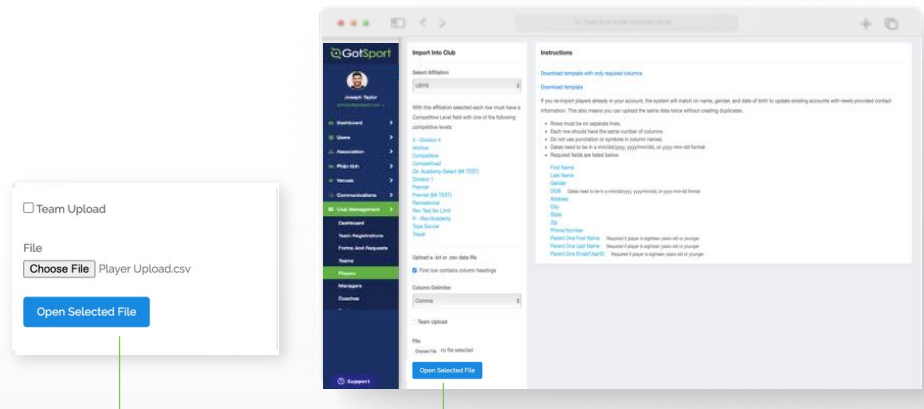

# Player Upload

## STEP 6

Once you have uploaded your .csv/.txt file, click **'Open Selected File'**.

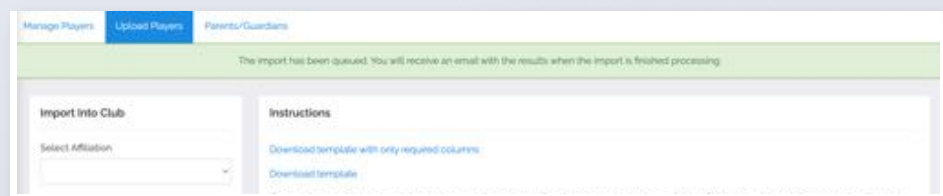

## STEP 7

From here you will match up the Column Headers from your Player Upload file and click the Import Data. You will receive an email with the results from the upload to determine which accounts were created. **Note:** The Column Headers do not have to be in the order of the Required Columns list from the Instructions table as long as each of the required columns are matched up. Then the upload will be completed.

When the import is finished processing, you will now see your newly imported players in your **Club Management > Player's list**.

**Note:** After you import your data, you will receive a message stating "Your import has been queued. You will receive an email with the results when the import is finished processing. Depending on the size of your import, this can take several minutes to complete."

# Merge User Accounts

If you have duplicate users, you have the ability to merge them. *If you are a coach/manager or parent/player please ask your club admin to merge profiles.*

To merge, both profiles must have these requirements for GotSport to qualify as a duplicate user:

- A role with your organization
- Same First Name, Last Name
- Same Gender
- Same D.O.B

If the system does not recognize the profile as a duplicate, here are some things to check:

- The search is **CASE SENSITIVE**, so make sure the first and last names **EXACTLY** match upper and lower case - e.g., **Matt** and **Matt** will not result in a match, but **Matt** and **Matt** will result in a match.
- Make sure name does not have extra spaces before and after the name.
- One profile has a nickname over another with a legal name. E.g., **Jen** vs **Jennifer**

## Before you merge accounts please read:

Make sure to choose the primary account carefully, Verification and Requirements do not carry over from the secondary account. If you have any of these, you will want to strongly consider having that be the primary account for the merge.

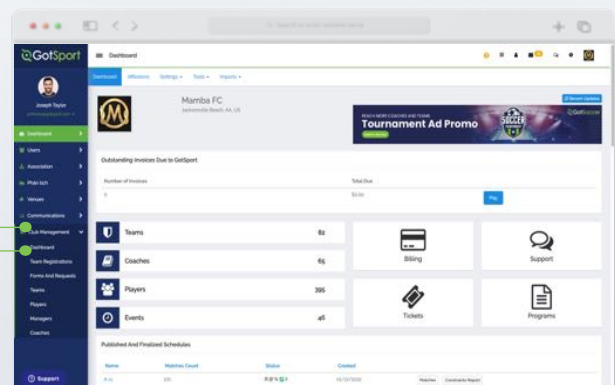

### STEP 1

Click the "**Club Management**" tab on your left, followed by "**Dashboard**" directly below.
